Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments: The UAA survey was conducted in August 2008 and no evidence of WBCR was observed. Stream Team volunteers monitor this stream. No interviews were conducted.

Is the evaluated use attainable? ☒ Yes ☐ No
Comments: The stream did not meet the maximum or median depth criteria, however a pool with a depth >1 meter was observed just upstream of the survey site. Due to this pool meeting the maximum depth criterion, the committee recommends that the WBCR use designation be retained. Due to evidence of secondary contact recreation (SCR), the committee recommends that the SCR use be assigned.

Committee Recommendation: ☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
